

## **REMARKS**

### **Changes to the Claims:**

Claims 9-10 are original, claims 1-2, 11, and 16-31 are canceled, claims 3-8 and 12-15 are currently amended, and new claims 32-39 have been added. Claims 3-10, 12-15, and 32-39 are pending in the present application. No new matter has been added.

### **Patentability of the Claims:**

Independent claims 6 and 35 and their dependent claims 32-34 and 36-39, respectively, recite patentable limitations originally recited in allowed claim 6 of the parent application (Application Serial No. 09/426,684) which claim was renumbered as claim 1 of U.S. Patent No. 6,646,997 issuing from the parent application. Independent claim 7 and its dependent claims 3-5, 8-10, and 12-15 recite patentable limitations originally recited in allowed claim 7 of the parent application, which claim was renumbered as claim 2 in the issued patent. Accordingly, claims 3-10, 12-15, and 32-39 of the present application are patentable over the prior art for the same reasons as claims 6 and 7 of the parent application.

### **Conclusion:**

Based on the foregoing, Applicants contend that all pending claims are in condition for allowance, and Applicants respectfully request that the instant case be passed to issue.
